Film Enel-Mochovce

"The ghosts of soviet nuclear - The case of Mochovce"

In the framework of the conference "World Energy Solutions : Switch to green power", a film commissioned by the Greens/EFA on the investments of the electric company Enel in Slovakia was first shown.

The film entitled "THE GHOSTS OF SOVIET NUCLEAR - The case of Mochovce" shows how unsafe, uneconomical, potentially illegal, undemocratic and unsustainable the Enel projects at units 3 and 4 of the nuclear reactor in Mochovce are.
