Let the cities decide!

Road safety, quality of life and climate protection

Speeding is the number one reason for accidents on European roads. A default speed limit of 30 km/h (20 mph) in residential areas would

- » halve the braking distance and reaction time,
- » reduce fatal accidents by 42%

The likelihood of an accident being fatal for pedestrians and cyclists is

- » 10% at a car speed of 30 km/h
- » 80% at a car speed of 50 km/h
