Making it green together!

Local climate solutions for all

Take the opportunity to (re)discover local climate solutions for all! In our leaflet “Making it green together!”, learn about policies and actions implemented by Greens at the local level that benefit people and the planet.

While of course not exhaustive, we hope these examples, ranging from climate plans to the improvement of public spaces will inspire you in getting involved at your own level!

Share ideas and spark discussions across Europe with the help of our leaflet - register below to receive a brochure and stickers from our *Take back the power* campaign!
