EU's Research and Innovation ecosystem

what's in it for SMEs?

- [Presentation: Jacques Gautray](#)

With the publication of Horizon 2020 the Commission has put forth its research and innovation (R&I) priorities for the coming years, however it is still uncertain what will be in it for SMEs. Finances directly earmarked for SMEs support activities have decreased compared to FP7 however new initiatives such as the SMEs dedicated instrument are being developed but it is not yet clear how it will work in practice. Understanding complementarity between measure under Horizon 2020 and those provided at regional and local level through the Structural Funds is also essential. The aim is to have a better understanding of the existing/planned initiatives so as to develop within both programmes a coherent ecosystem for R&I support to SMEs.

Draft programme

14:30
