Fisheries reform

Where should the public money go?

DOCUMENTATION

- WATCH THE RECORDED STREAM

PRESENTATIONS

- Arien Blees-Booij - Sustainable fisheries - impact assessment
- Gilles van de Walle - Axis 4 or the EFF at local level
- Markus Knigge - Supporting Compliance with the CFP
- Bertrand Le Gallic - How to Modernise Vessels Without Increasing Fishing?
- Antonio Garcia Allut - Benefits for marine conservation and coastal communities - Co-management in Galicia

INTRODUCTION

The Parliament is in the midst of its negotiations on the European Maritime and Fisheries Fund for the next seven years. Will these subsidies be used to promote the progressive reform to finally create the sustainable Common Fisheries Policy that the Parliament voted for in February? Or will the €7 billion be used to create more over-capacity in the fleets, to develop unsustainable aquaculture and to promote a "big business" approach to fisheries?

DRAFT PROGRAMME

- ***Introduction***
  French Minister of Fisheries (tbc)

- ***"Sustainable Fisheries: an impact assessment"***
  Arien Blees-Booij (project leader of the Dutch Court of Auditors)
