Future of Transport

Reinventing the Wheel or Reinventing the Policy ?

With the debate on the upcoming White Paper on the Future of Transport fast approaching, this conference is your chance to hear the views and exchange ideas with other operators, stakeholders, researchers, MEPs and representatives of the European Commission on approaches and solutions to some of the most pressing challenges facing transport today. How to design and promote a more sustainable mobility?

How to more effectively harness already existing tools and technologies? How can the EU's future transport policy accelerate much needed progress in this domain?
