Green Tech Summit Europe 2023

--- PLEASE REGISTER BELOW ---

Background

Green Tech Summit Europe 2023 is a high-profile conference dedicated to bringing together environmental and digital rights organizations, academia, technology companies, policymakers, and startups who are committed to mitigating the environmental impacts of digital technologies. This event provides a platform for dialogue, collaboration, and knowledge-sharing aimed at fostering regulatory solutions to balance technological advancements with environmental sustainability and addressing the environmental challenges posed by digital technologies.

Green Tech Summit Europe 2023 aims to inspire and drive the transformation of the digital technology landscape into one that prioritizes environmental sustainability and responsible innovation. Together, participants will:

● Share Best Practices and showcase successful case studies and best practices in sustainable digital innovation, highlighting initiatives that have reduced carbon footprints and promoted eco-friendly practices.

● Engage in discussions with policymakers to develop and refine regulations and incentives that encourage environmentally responsible technology development and adoption.

Register now to follow the event – either remotely or in person!

Refreshments will be provided.
