Hungary at the crossroads

Meeting the challenges

DOCUMENTATION

- [Videos of the three conference panels \(democracy - energy - red mud disaster\)](#)

INTRODUCTION

In the light of the media law and the red mud lesson, the Greens in the European Parliament will address two major issues of concern during the two-day debate in Budapest : first, the **state of democracy in Hungary** which raises legitimate questions and secondly, the protection of **environment** as a mean to create jobs and prosperity.

In our European Union, Member states take turns to present their own vision, priorities and agenda for the EU. It is the occasion to be reminded that domestic matters are also European affairs.

This debate is co-organised with LMP, the Green sister party in Hungary.
