The EU is currently battling with the most severe crisis in its recent history. The social consequences for European citizens are dramatic. The European Union has put in place a series of initiatives to try to curb public deficits, commonly referred to as austerity measures. The solutions currently proposed - a policy mix of spending cuts, raising taxes and structural reforms - are exacerbating the crisis. What will the social consequences be if Europe continues down this path? On the eve of the June European Summit, the Greens/EFA Group will propose an alternative to austerity - a proposal on how to create prosperity and jobs without hitting on people most at risk. Join us for a lively discussion with European Commissioners Olli Rehn (Economic and Monetary Affairs and the Euro), László Andor (Employment, Social Affairs and Inclusion) and several other high-level speakers. **DRAFT PROGRAMME** 09.00 - 09.30: Registration **09.30 - 09.45: Opening and Introduction Elisabeth Schroedter MEP ----- Part I - Social impact of the crisis: Analysis, expertise and outlook**
