## Putting an end (at last) to glyphosate

### Live Webinar - Register here!

In 18 months, the EU will have to decide whether it renews the approval for glyphosate to be sold on its market. Where are we at, with regards to the fight against this herbicide? Are Member-States going to approve its renewal, or has time come for a shift to alternatives?

Join our event to hear about grass-roots battles & farmers' experiences, and exchange with experts.
