Putting an end (at last) to glyphosate

Live Webinar - Register here!

In 18 months, the EU will have to decide whether it renews the approval for glyphosate to be sold on its market. Where are we at, with regards to the fight against this herbicide? Are Member-States going to approve its renewal, or has time come for a shift to alternatives?

Join our event to hear about grass-roots battles & farmers' experiences, and exchange with experts.

Hosts: **Claude Gruffat & Thomas Waitz**, Green MEPs from France & Austria

- **Corinne Lepage**, former FR Minister for Environment, former MEP, Founder of NGO Justice Pesticides
