## The European Pillar of Social Rights: the tool for a just climate transition?

### Live Webinar - Register here!

The European Commission will soon release its Action Plan for the European Pillar of Social Rights. The Portuguese Council Presidency has stated in its top 3 priorities that it wants **to use the EU Social Pillar as a key element for ensuring a fair and inclusive climate transition**. The 20 rights and protections outlined in the social pillar are important to defend as Europe transitions to a new economic model. Social rights must go hand in hand with the climate transition. But how far will the social pillar go in upholding social rights? And to what extent does it provide the tools to bring about the climate transition in a socially fair way?

Experts from civil society will discuss and put key questions to Greens/EFA MEPs Mounir Satouri and Kim van Sparrentak.
