Afghanistan Post-Elections

Civil Society and International Policy

PRESENTATION

The European Network for NGOs in Afghanistan, ENNA is pleased to invite you to the 4th annual conference in the European Parliament. This year's conference brings together members of Afghan civil society, the EU Presidency, the European Commission, members of the European Parliament and European NGOs. The speakers and participants will discuss how civil society can provide new momentum to reconstruction and state-building in Afghanistan post-elections.

The keynote speaker will be Anna Karin Eneström, the Swedish Special Envoy to Afghanistan and Pakistan. She will talk about the challenges facing Afghanistan and the International Community in general and EU in particular.

David Tirr, Head of Unit, DG Relex Pakistan and Afghanistan will be able to explain the priorities for EU Aid programmes for Afghanistan and the region.

Orzala Ashraf (ICCO Afghanistan), Fatima Ayub (OSI) and Laurent Saillard (ACBAR) will give their views on future policy options for the international community's engagement in Afghanistan.

The Conference is being held at a significant time for Afghanistan, security having deteriorated considerably since the last conference, and when concerns are being expressed about the slow progress of governance reform. There will be a focus on future opportunities and recommendations.
