

World Refugee Day 2017

***OPENING
THE DOORS
TO DIALOGUE***

20-22 June | Esplanade Solidarnosc, in front of the European Parliament

Far too often we just talk about refugees - it is time to let people tell their own story. Come by and be part of the dialogue.

The Greens/EFA group in the European Parliament is organising a unique project on World Refugee Day, 20 June, to create a global conversation and raise awareness about the situation of refugees around the globe.

We invite you to enter the Portal placed in front of the European Parliament and come face-to-face with people in an identical space somewhere else in the world. The Portal includes sophisticated multimedia which will allow you to connect with refugees in different cities.

Directly from Brussels to Jordan, Palestine, Germany or Iraq, people will be able to communicate, dance or sing together as if they were in one room.
